To Whom It May Concern:

I am writing this letter in strong support for Peter Lord and in particular the presentation that he provided to our students using the StarLab portable planetarium. In a nutshell I can share with you that Peter provided a wonderful experience for the students. As a matter fact, many of our students dragged their parents back for the evening community event due to their enthusiasm for what they had experienced earlier in the day. Peter truly has a gift to be able to transfer his knowledge and excitement for space science in a way that all students can relate to regardless of their age. Throughout the day and grades, Peter was able to provide an incredible experience for all students using his extraordinary teaching and communication skills. Simply put, he is a master of being able to differentiate to meet the needs of all students. I truly believe that any school would benefit from this experience and so it is my distinct pleasure to be putting my stamp of approval on this worthy endeavor.

Sincerely,

Scott McFarland
Principal
